## CONDITIONS OF SALE

### COMMISSION

1. A buyer's commission of 10% of the hammer (selling) price will be added, and becomes part of the total purchase price to be paid by the buyer.

### BIDDING

2. All Bids are per lot, as numbered herein. We reserve the right to withdraw any lot prior to the sale, to divide a lot or to group two or more lots.
3. The highest bidder shall prevail. It is the sole right of the Auctioneer to settle any dispute between bidders, to offer for resale any lot under question and to regulate the bidding. The auctioneer also reserves the right to refuse any bid he believes not to have been made in good faith.
4. Persons unable to attend the sale may bid via the enclosed bid sheet or by telephone by using our WATS 800-221-7276. New York State residents may call 212-751-1900. We will be pleased to assist you in bidding, answer any questions regarding a lot, or give you more information on any lot(s).

### PAYMENT

5. Payment shall be in U.S. Funds. All bidders, floor or via mail or telephone shall pay for their lots in advance of delivery unless prior arrangements have been made. Successful mail bidders shall be notified of lots won and must remit prior to lots being shipped. A charge for postage, insurance and handling shall be added, as well as appropriate New York State Sales Tax where applicable. Exemption Certificates must be on file with us prior to the sale. Receipt from a reputable carrier shall constitute delivery by us.
6. Title shall not pass until payment in full for won lots has been received. A late charge of 1½% per month shall be imposed on overdue payments.
7. Placing of a bid shall constitute an agreement between buyer and seller and acceptance of the foregoing terms.

### GUARANTEES

8. All items offered in this catalogue are guaranteed as to date, mintmark, metal, specialized catalogue number (such as Sheldon) attribution and of course, authenticity. Lots on which description is incorrect according to the above, are returnable with advance permission from HRN. Disputed lots must be returned intact in their original containers, within 10 days of receipt. Lots are not returnable for any reason (other than a question of authenticity) if:
  - a) You are a floor bidder, even if you did not view the lot.
  - b) You viewed the lot prior to the sale.
  - c) The lot contains more than one coin.
  - d) A photograph of the lot in question appears in the catalogue and clearly shows any defect not noted in description.
  - e) You cannot afford the lot. Bids placed in an auction are legally binding. Please check your finances prior to bidding.
  - f) You simply do not like the coin even though the description is correct. An auction sale is NOT an approval sale and is NOT conditional.
  - g) More than thirty days has elapsed since the day of the sale.

### DESCRIPTION

9. The grading of any coin is a matter of interpretation of the features of that coin as seen by the grader. Grading is NOT an exact science but an art. It is a blending of what the grader sees added to his knowledge of coins in general and of the specific characteristics of the coin in question, plus his experience and awareness of current grading practices as well as market conditions. Even knowledgeable and experienced numismatists can (and do) HONESTLY disagree on the exact grade to place on a coin. Additionally, grading standards have been known to constrict or relax in accordance with market conditions at any given time. The grades represented herein are a reflection of our experience and expertise in the art (not science) of grading and our awareness of the numismatic field at this particular time. They reveal our best opinion of the state of preservation of the item, and are in accordance with most presently used guides on grading as we interpret them. Finally, please be aware of the price paid for a coin. In many cases a lot may not meet your expectations, but you have purchased it for a substantially reduced price. Please keep this in mind when deciding if a lot is satisfactory.

### A FEW TIPS ON BIDDING

With this auction sale, and in accordance with the growing custom of other auction houses, Harmer Rooke has dispensed with the printing of estimates for each lot. It is expected that all potential buyers, both professionals and collectors, are well aware of the current values of most coins, particularly those in which they have some interest.

However, since prices are guided, in many cases, by various publications and since these prices change, sometimes drastically, from week to week, an auction catalogue written some three months previous to a sale may not contain cogent prices, and, in fact, may sometimes be more misleading than helpful. Therefore, we have eliminated the estimate column.

May we suggest bids that make sense. Offering \$100 for a \$1000 coin wastes only your time and ours. While it occasionally happens that a bargain can be obtained at auction, most coins will sell for a price fairly close to their actual value. Please keep this in mind when bidding by mail. And, regardless of "lucky numbers" we would appreciate it if bids are not offered in odd amounts. Such bids will be automatically reduced to the lowest whole number. (\$102.34 becomes \$100.00).

12. 1854 Pleasant little copper, iridescent color subdued and attractive, BU-63.
13. 1857 Last year and a little scarce. BU-60, much lustre, a bit weak in strike as usual.

## LARGE CENTS

15. **1793 Chain S-3** Fine detail, a bit granular, not at all bad looking. Planchet cracked around edge. Ex-Libra.

16. **1793 Wreath Vine and Bars, S-6** Very Fine detail, all quite legible, a few old scratches over face and hair, but altogether quite pleasing. Fine plus, Ex-Libra.

17. **1793 Wreath S-9** Strong detail on a somewhat rough planchet, couple of edge bumps, all-in-all rather pleasing. Very Fine.
18. **1793 Wreath S-9** Full portrait, Liberty and date vestigial, planchet flake at 9 to 10 o'clock obverse, but better than a space-filler.

25. **1798 S-174 Rarity-2.** Nice Very Fine-20.

26. **1799 The Key Date S-189.** Obverse VF, nice chocolate color. Reverse has been rather strongly retooled, not bad to the naked eye, possibly because it is a late die state. Still very rare, with PNG Certificate. Obverse makes Condition Census. Ex-Doyle.

27. **1800 S-205 Rarity-5.** Very Fine, very pitted, very rare, very cheap!
28. **1801 1/1000 S-223.** Nice fine, Ex-Libra.

40. 1812 S-289 Beautiful glossy chocolate brown EF with lovely smooth surfaces. Several old, patinated-over scratches are apparent on the obverse but the piece displays beautifully.

## FLYING EAGLE CENTS

47. **1857** Deeply rainbow-toned and very handsome. BU-63, worthy of the finest set. Light scratch under the color, '8' to breast, barely noticeable.
48. **1857** Mishandled PROOF. A strange coin which exhibits all the die diagnostics of the rare PROOF. Comparison with business strikes from the same die reveals subtle differences, chiefly a square and high edge. AU, very few known.

## TWO CENT PIECES

- 77. 1864 Large Motto. Some red shows as well as a spot above motto, another on the reverse. Still makes a 63.

- 78. 1864 BU-63+ Deep gold, very attractive, seldom seen this nice.
- 79. 1865 Most original red still shows, a little weakly struck in spots but very pretty. BU-63.
- 80. 1866 Toned over original red, much flash and better than BU-60.

81. **1866 PROOF** Gem piece with light blue color, almost silvery. Very unusual and very beautiful.

83. **1868** Sharply struck BU-60 with much red and some toned areas, attractive.

### THREE CENT SILVER

87. 1852 Type I BU-63 On a slightly defective planchet showing a tiny edge irregularity at 10 o'clock (obv.) with many light parallel diagonal lines (adjustments?) on both sides. Interesting and odd.

NYS 212-751-1900 Out of State 800-221-7276

92. **1870 Type III PROOF-63** A bright little gem minimally hair-lined, deep mirrors. Only 1000 minted plus 3000 business strikes, scarce year.

93. **1873** Last year of issue, and only in **PROOF** (600 minted). Deep steel-blue toning, better than a 60 and quite rare.

## THREE CENT NICKELS

94. 1865 Numerous die cracks and clash marks (late die state). Quite toned, a very nice BU-60 specimen.

104. 1870 BU-60 Lightly struck as often for the year.
105. 1873 Dullish clashmarked AU.
106. 1875 Bright and unspecked, lightly clashed, toning a bit unevenly on the reverse. Just about makes BU-63.

107. **1881** Choice BU with some verdi-gris on high points, easily removable.

108. **1882** Choice **PROOF** Light toning, 3100 minted, quite scarce and nice.

109. **1886** Minted only in **PROOF**, this offering being a full 65. A wonderful addition to any set. Very slight toning.

110. **1887/6** **PROOF-63+** Proof-only year. Bright and nice.

111. **1888** MS-65 A scarce late year and a beautiful coin, innocent of spots or flaws.

287. 1836 O-106 Beautiful proof-like blue toned but short of BU.

The second is the same but the intermediate stage, 30½mm., (F128) Very Fine, while the last is the normal 30mm., (F129) Extra Fine. An opportunity to own a set of numismatica which might be unique! 3 coins.

289. **1839** A very unusual half-dollar. The obverse is normal for the year but the reverse is Judd-95, with upturned claws and small letters. Just about Very Fine, with the pattern die being somehow used for the regular. Small letters compared to normal.

Accompanying is an old photograph copper plate, wood mounted, whether from this coin or another unknown, plus ANA Certificate of Authenticity for the coin. (9/5/85).

- 337. A most interesting letter from B.F. Taylor, Director of the New Orleans Mint and present at the striking of the four original Confederate Halves, one of which he retained. Signed and entirely in his hand, on ruled notepaper dated 25 May 1903, to L.P. Hall Esq. 'The Confederate Coin of 1861 submitted to me for examination is undoubtedly genuine. The execution is very perfect which could not be done on any common press, the pressure required being at least ten-tons for its perfectness. I was coiner of the mint at the time, and only four pieces were struck, only one of which, after many years, could be located. Very Truly, B.F. Taylor.' 8 x 5¾", perfectly clear, slight foxing, LL corner missing about ½", far from text. A priceless piece of numismatic history!

(This note poses a puzzle. It accompanied the restrike offered above but obviously doesn't refer to that piece as Taylor must have known about the restrikes. So to which of the four originals does it refer?)

- 359. 1874 Arrows Very Fine-35, bright.
- 360. 1874 Arrows Uncirculated but cleaned, rough surface beneath 'STATES OF AM' reverse. Still scarce and rather nice looking.
- 361. 1875 (VF), 1875S Med. (EF), 1876 (VF), and 1876CC (F+). Four coins.

- 362. **1876** Rosy peripheral toning enhances this beauty, a 'first glance' BU-65. However, a couple of tiny contact marks might bring the grade to BU-63+.
- 363. **1876** Slightly proof-like BU-60+, reverse deeply toned, obverse a bit brighter. A nice coin.
- 364. **1876S** Extra Fine, tiny edge nick, dig near profile, both very minor. Toned.
- 365. **1877** May be Uncirculated, but struck slightly flat. Call it strong AU.
- 366. **1877** Proof-like AU, nice.
- 367. **1877S** A pretty piece with subdued light toning, darker at the edges, BU-60+.
- 368. **1877S** Duskily toned AU, looks better.
- 369. **1877S** BU but once polished, now toning.
- 370. **1878** Just a nice AU.
- 371. **1878CC** Very scarce, six letters visible, about Fine.

- 372. **1879 PROOF-63** Scarce year, deeply toned with red showing through, a nice piece. From Die I.
- 373. **1879** Another, flashier than above but with a few light contact marks, some hairlining etc., but beautiful toning. PROOF-60+.

- 374. **1879** A really rare date with only 5900 minted. Proof-like AU, numerous light hairlines preventing a BU rating.
- 375. **1880 PROOF-60** Well-toned which masks numerous hairlines. Two barely noticeable edge dings, obverse.
- 376. **1881** Very low mintage (10,975). Nice Extra-Fine, hard-to-find thus.

377. 1883 PROOF-60+ Well toned and nice, 1039 minted, very attractive.

378. 1883 Scarce business strike, semi-proof-like, 8000 minted. Nice BU-60++ , hard-to-find thus.
379. 1883 Another, seldom available, Extra Fine-40, toned and nice.

380. 1884 PROOF-60++ But not quite 63. Some usual hairlines, etc., but a really bright and attractive coin.
381. 1886 Dark Very Fine+, 5886 minted, numerous small digs on leg and bust, but not all that bad. Scarce date in a business strike.
382. 1887 PROOF-60+ Evenly toned deeply, hairlines beneath and two scratches in obverse right field. 710 minted, still flashy and nice.

383. 1888 PROOF Slight toning, really a pretty coin. Better than a 60, some might call it 63, despite a few hairlines.
384. 1891 PROOF With numerous hairlines and several digs about date, in right field, etc. Yet, still rare and not as bad as it sounds.

385. **1883** Another, this quite a bit nicer, **PROOF-63**. Much lustre gleaming through deep reddish and blue toning. Very pretty.

## BARBER HALVES

386. **1893** Lovely lightly toned coin, BU-63 with little to comment upon.

387. **1901 PROOF** Dark and lustrous, a real beauty in gem condition. Brilliant ebony field, set off by dark frosting for a startling effect! One of the most beautiful pieces we have ever seen!

388. **1902** Nice, attractive toning, BU-63, notwithstanding a few hairlines beneath.

389. **1905** BU-60 with uneven toning, giving it a slightly mottled appearance.

390. **1911S** Delicately toned, lovely BU-65 and quite well-struck for this year and mint.

391. **1913 PROOF** Very slightly and unnoticeably hairlined, toned mirrors, nice cameo, 63+ +.

392. **1915D A BU-65** example of Mr. Barber's work. Bluish lustre, flashy and attractive.

393. **1915S** An absolute **Gem-65** with reverse even a bit better. An all but invisible line near the 10th star keeps this piece from absolute perfection, plus slightly soft strike about the ear, typical. Ex-Libra.

 398. 1929S Bright BU-60 +, a decent coin for a date set, not easily acquired in BU.

- 399. 1933S Beautiful BU-63, bright lustrous piece, a few tiny contact marks on the obverse keeping from a BU-65.
- 400. 1934 Modestly lustrous, real satin sheen. Usual slightly weak strike, one or two obverse contact marks, slight, BU-63.
- 401. 1935D Toned BU-60+.
- 402. 1936 A bit better than BU-60, quite pleasing.
- 403. 1936 Another, with satiny sheen, much lustre, very light scratch 'T' to 'Y', and a few other contacts. Almost makes BU-63.

412. **1938 PROOF-65** Really bright, innocent of any toning, light removable fingermark between 'TY', quite trivial.
